

# 2022 Local Planning & Network Development Plan

Complete and submit in **Word** format (**not PDF**) to [Performance.Contracts@hhs.texas.gov](mailto:Performance.Contracts@hhs.texas.gov) no later than December 31, 2022.

All Local Mental Health Authorities and Local Behavioral Health Authorities (LMHA/LBHAs) must complete Part I, which includes baseline data about services and contracts and documentation of the LMHA/LBHA's assessment of provider availability, and Part III, which documents Planning and Network Advisory Committee (PNAC) involvement and public comment.

Only LMHA/LBHAs with interested providers are required to complete Part II, which includes procurement plans.

When completing the template:

- ◆ Be concise, concrete, and specific. Use bullet format whenever possible.
- ◆ Provide information only for the period since submission of the 2020 Local Provider Network Development Plan (LPND Plan).
- ◆ When completing a table, insert additional rows as needed.

NOTES:

- This process applies only to services funded through the Mental Health Performance Contract Notebook (PCN); it does not apply to services funded through Medicaid Managed Care. Throughout the document, data is requested only for the non-Medicaid population.
- The requirements for network development pertain only to provider organizations and complete levels of care or specialty services. Routine or discrete outpatient services and services provided by individual practitioners are governed by local needs and priorities and are not included in the assessment of provider availability or plans for procurement.

# PART I: Required for all LMHA/LBHAs

5) *Using bullet format, describe the strategies the LMHA/LBHA is using to minimize overhead and administrative costs and achieve purchasing and other administrative efficiencies, as required by the state legislature (see Appendix C).*

- ◆ DCMHMR utilizes an online purchasing- co-op purchasing program that provides goods at a government rate.
- ◆ DCMHMR uses an electronic payroll, and time accounting system Timestar to improve efficiency and reduce errors.
- ◆ DCMHMR uses an electronic billing system to improve efficiency by speeding up the process by no longer uses paper forms.
- ◆ DCMHMR uses an electronic accounting system to improve efficiency.
- ◆ DCMHMR has an interlocal agreement with 12 other community centers to share the cost and implementation of an Electronic Health Record system and is currently using it.

### **Provider Availability**

*NOTE: The LPND process is specific to provider organizations interested in providing full levels of care to the non-Medicaid population or specialty services. It is not necessary to assess the availability of individual practitioners. Procurement for the services of individual practitioners is governed by local needs and priorities.*

*7) Using bullet format, describe steps the LMHA/LBHA took to identify potential external providers for this planning cycle. Please be as specific as possible. For example, if you posted information on your website, how were providers notified that the information was available? Other strategies that might be considered include reaching out to YES waiver providers, Home and Community Based Services (HCBS) providers, and past/interested providers via phone and email; contacting your existing network, Managed Care Organizations (MCOs), and behavioral health organizations in the local service area via phone and email; emailing and sending letters to local psychiatrists and professional associations;*

*meeting with stakeholders, circulating information at networking events, seeking input from your PNAC about local providers.*

- ◆ *Summarize the content of the follow-up contact described in Appendix A. If the provider did not respond to your invitation within 14 days, document your actions and the provider’s response. In the final column, note the conclusion regarding the provider’s availability. For those deemed to be potential providers, include the type of services the provider can provide and the provider’s service capacity.*

## Part II: Required for LMHA/LBHAs with potential for network development

### Procurement Plans

*If the assessment of provider availability indicates potential for network development, the LMHA/LBHA must initiate procurement.*

*Texas Administrative Code (TAC) Title 26, Part I, Chapter 301, subchapter F describes the conditions under which an LMHA/LBHA may continue to provide services when there are available and appropriate external providers. Include plans to procure complete levels of care or specialty services from provider organizations. Do not include procurement for individual practitioners to provide discrete services.*

*8) Complete the following table, inserting additional rows as needed.*

- ♦ Identify the service(s) to be procured. Make a separate entry for each service or combination of services that will be procured as a separate contracting unit. Specify Adult or Child if applicable.*
- ♦ State the capacity to be procured, and the percent of total capacity for that service.*
- ♦ Identify the geographic area for which the service will be procured: all counties or name selected counties.*
- ♦ State the method of procurement—open enrollment Request for Application (RFA) or request for proposal.*
- ♦ Document the planned begin and end dates for the procurement, and the planned contract start date.*

***Rationale for Limitations***

**NOTE: Network development includes the addition of new provider organizations, services, or capacity to an LMHA/LBHA’s external provider network.**

9) Complete the following table. Please review TAC Title 26, Part I §301, subchapter F carefully to be sure the rationale addresses the requirements specified in the rule (See Appendix B).

- ◆ Based on the LMHA/LBHA’s assessment of provider availability, respond to each of the following questions.
- ◆ If the response to any question is Yes, provide a clear rationale for the restriction based on one of the conditions described in TAC Title 26, Part I §301, subchapter F.
- ◆ If the restriction applies to multiple procurements, the rationale must address each of the restricted procurements or state that it is applicable to all of the restricted procurements.
- ◆ The rationale must provide a basis for the proposed level of restriction, including the volume of services to be provided by the LMHA/LBHA.

	Yes	No	Rationale
1) Are there any services with potential for network development that are not scheduled for procurement?		x	
2) Are any limitations being placed on percentage of total capacity or volume of services external providers will be able to provide for any service?		x	
3) Are any of the procurements limited to certain counties within the local service area?		x	
4) Is there a limitation on the number of providers that will be accepted for any of the procurements?		x	

10) *If the LMHA/LBHA will not be procuring all available capacity offered by external contractors for one or more services, identify the planned transition period and the year in which the LMHA/LBHA anticipates procuring the full external provider capacity currently available (not to exceed the LMHA/LBHA's capacity).*

## **Capacity Development**

11) *In the table below, document your procurement activity since the submission of your 2020 LPND Plan. Include procurements implemented as part of the LPND plan and any other procurements for complete levels of care and specialty services that have been conducted.*

- ◆ *List each service separately, including the percent of capacity offered and the geographic area in which the service was procured.*
- ◆ *State the results, including the number of providers obtained and the percent of service capacity contracted as a result of the procurement. If no providers were obtained as a result of procurement efforts, state "none."*

## Assessing Provider Availability

Provider organizations can indicate interest in contracting with an LMHA/LBHA through the [LPND website](#) or by contacting the LMHA/LBHA directly. On the LPND website, a provider organization can submit a Provider Inquiry Form that includes key information about the provider. HHSC will notify both the provider and the LMHA/LBHA when the Provider Inquiry Form is posted.

During its assessment of provider availability, it is the responsibility of the LMHA/LBHA to contact potential providers to schedule a time for further discussion. This discussion provides both the LMHA/LBHA and the provider an opportunity to share information so that both parties can make a more informed decision about potential procurements.

The LMHA/LBHA must work with the provider to find a mutually convenient time. If the provider does not respond to the invitation or is not able to accommodate a teleconference or a site visit within 14 days of the LMHA/LBHA's initial contact, the LMHA/LBHA may conclude that the provider is not interested in contracting with the LMHA/LBHA.

If the LMHA/LBHA does not contact the provider, the LMHA/LBHA must assume the provider is interested in contracting with the LMHA/LBHA.

An LMHA/LBHA may not eliminate the provider from consideration during the planning process without evidence that the provider is no longer interested or is clearly not qualified or capable of provider services in accordance with applicable state and local laws and regulations.

## **Appendix B**

### ***TAC Title 26, Part I §301, subchapter F. Conditions Permitting LMHA Service Delivery.***

An LMHA may only provide services if one or more of the following conditions is present.

- (1) The LMHA determines that interested, qualified providers are not available to provide services in the LMHA's service area or that no providers meet procurement specifications.
- (2) The network of external providers does not provide the minimum level of individual choice. A minimal level of individual choice is present if individuals and their legally authorized representatives can choose from two or more qualified providers.
- (3) The network of external providers does not provide individuals with access to services that is equal to or better than the level of access in the local network, including services provided by the LMHA, as of a date determined by the department. An LMHA relying on this condition must submit the information necessary for the department to verify the level of access.
- (4) The combined volume of services delivered by external providers is not sufficient to meet 100 percent of the LMHA's service capacity for each level of care identified in the LMHA's plan.
- (5) Existing agreements restrict the LMHA's ability to contract with external providers for specific services during the two-year period covered by the LMHA's plan. If the LMHA relies on this condition, the department shall require the LMHA to submit copies of relevant agreements.
- (6) The LMHA documents that it is necessary for the LMHA to provide specified services during the two-year period covered by the LMHA's plan to preserve critical infrastructure needed to ensure continuous provision of services. An LMHA relying on this condition must:
  - (A) document that it has evaluated a range of other measures to ensure continuous delivery of services, including but not limited to those identified by the LANAC and the department at the beginning of each planning cycle;

- (B) document implementation of appropriate other measures;
- (C) identify a timeframe for transitioning to an external provider network, during which the LMHA shall procure an increasing proportion of the service capacity from external provider in successive procurement cycles; and
- (D) give up its role as a service provider at the end of the transition period if the network has multiple external providers and the LMHA determines that external providers are willing and able to provide sufficient added service volume within a reasonable period of time to compensate for service volume lost should any one of the external provider contracts be terminated.

## Appendix C

### **House Bill 1, 87<sup>th</sup> Legislature, Regular Session, 2021 (Article II, Health and Human Services Commission Rider (139)):**

Efficiencies at Local Mental Health Authorities and Intellectual Disability Authorities. The Health and Human Services Commission shall ensure that the local mental health authorities and local intellectual disability authorities that receive allocations from the funds appropriated above to the Health and Human Services Commission shall maximize the dollars available to provide services by minimizing overhead and administrative costs and achieving purchasing efficiencies. Among the strategies that should be considered in achieving this objective are consolidations among local authorities and partnering among local authorities on administrative, purchasing, or service delivery functions where such partnering may eliminate redundancies or promote economies of scale. The Legislature also intends that each state agency which enters into a contract with or makes a grant to local authorities does so in a manner that promotes the maximization of third-party billing opportunities, including to Medicare and Medicaid. Funds appropriated above to the Health and Human Services Commission in Strategies I.2.1, Long-Term Care Intake and Access, and F.1.3, Non-Medicaid IDD Community Services, may not be used to supplement the rate-based payments incurred by local intellectual disability authorities to provide waiver or ICF/IID services.
